Important Meeting

## **Eritreans of the Greater Seattle area.**

As US citizens or legal residents of this country, it is imperative that all Eritrean Americans assert our right for the pursuit of happiness and to work and live in our adopted country without any kind of prejudice directed against us from anybody but more so from some US government officials!

In light of the recent barrage of misinformation and unspecified threat against Eritrea by some State Department officials for yet unsubstantiated allegations directed against our country of origin, the issues they have raised need to be addressed by us promptly and set the record straight. Because, if the threat of labeling Eritrea as a “Sponsor of Terrorism” is finalized, it could have wider ramifications in just about everything we do or we intend to do.

Thus, all Eritreans of all persuasions are invited to attend and are encouraged to participate in this very important deliberation which is planned to be held soon in Seattle.

**Date:** Sunday, September 30<sup>th</sup>, 2007  
**Time:** 4 PM (Sharp)  
**Place:** Eritrean Community Center  
1854 S Massachusetts Street, Seattle

**Please be there on time!**

NOTE: - We will not entertain issues that are not directly related to this important and timely subject on hand.

Concerned Eritrean-Americans  
(Seattle Metropolitan area)
